4. THE SERVICES

4.1 Generally

4.1.1 Governance.

- (a) Sites. The Sites will be overseen by the Company. The Company may modify, suspend or discontinue support for the Sites, including the Public APIs, at any time without prior notice, in its sole discretion.
- (b) KyberSwap Smart Contracts. The KyberSwap Smart Contracts may be maintained, modified, upgraded, paused or suspended by the Company where technically permitted. Once deployed, the KyberSwap Smart Contracts will remain on the applicable blockchain and cannot be deleted by the Company. No KyberSwap Party shall be liable for any Losses arising from or relating to the use of the KyberSwap Smart Contracts.
- (c) DAO Smart Contract. The DAO Smart Contract is not maintained or controlled by the Company. No KyberSwap Party shall be liable for or have any obligations with respect to any Losses arising from or relating to the use of the DAO Smart Contract. Unless modified in accordance with the DAO Smart Contract, the DAO Smart Contract will not be modifiable by any KyberSwap Party.

- 4.1.2 Connecting a Wallet. In order to access certain Services and engage in transactions through the Sites, a User may be required to connect or otherwise use a wallet (“**Wallet**”) in connection with the Services. Connecting or otherwise using a Wallet will enable the Sites to communicate or interact with the third-party software associated with such Wallet used by the User. Such third-party software shall be exclusively responsible for effecting or authorizing any transactions with

such Wallet, including any transactions relating to any KyberSwap Smart Contracts or the DAO Smart Contract.

4.1.3 User Information.

- (a) Your access of the Sites or use of the Services shall be conditional on you providing the following information (“**User Information**”):
 - (i) your confirmation that you have read these Terms and acceptance thereof; and
 - (ii) such other information as may be requested from you or automatically collected from your use of the Services/Sites or otherwise as determined by any KyberSwap Party in its sole discretion.
- (b) You agree that we may, without prior notice to you, suspend, restrict, or terminate your access to the Sites or use of the Services until any requested User Information has been provided to our satisfaction. You also irrevocably and unconditionally agree that such User Information provided by you to us may be shared without limitation or restriction with any other KyberSwap Party for the purpose of compliance with any Applicable Laws in connection with the Services.
- (c) By submitting any of your User Information, you represent and warrant to each KyberSwap Party that such User Information as submitted is complete, accurate and authentic and you shall promptly update us of any changes to your User Information. In the event of any change to your User Information, you agree that we may, without prior notice to you, suspend, restrict, or terminate your access to the Sites or use of the Services until any such change has been provided to our satisfaction.
- (d) By submitting your User Information, you shall be deemed to have authorized and permitted:
 - (i) any KyberSwap Party to directly or through third parties make inquiries which any KyberSwap Party in its absolute discretion considers necessary or appropriate to verify such User Information for the purpose of complying with any Applicable Laws or otherwise; and
 - (ii) any KyberSwap Party to take any action which any KyberSwap Party deems necessary or appropriate based on the results of such inquiries.

4.1.4 Linked Address. Any User’s Address (including those holding KNC Tokens or used for receipt of Voting Rewards) (“**Linked Address**”) you link to the DAO Smart Contract or the KyberSwap Smart Contracts using the Sites:

- (a) shall be owned, held, and be fully controlled by you, and you shall hold and have full control of the private key (whether such private key is held through a personal Wallet or otherwise) and all other credentials to your Linked Address;
- (b) shall not be an Address owned, held, or controlled by a person other than you, including a cryptocurrency exchange address or a third party hosted wallet address (the access of which is controlled by such third party); and
- (c) must be fully compatible with and support the KNC Tokens and the Services.

4.1.5 Public Blockchain Information. The Sites and Services allow a user to read and display data from

public blockchains, and to generate standardized transaction messages which can be used by the User's third-party Wallet software (or other Third Party Integrated Applications) to engage with the KyberSwap Smart Contracts or the DAO Smart Contract. Because the KyberSwap Smart Contracts and the DAO Smart Contract are deployed on a public blockchain, they are directly accessible through command lines or command prompts and may now or in the future be accessible through other decentralized applications (dApps) or other third-party interfaces. Therefore, with the right technical expertise, it is possible to view substantially the same information, and to generate transaction messages to interact with the KyberSwap Smart Contracts and the DAO Smart Contract, without use of the Sites or the Services. There is no prohibition herein, or separate license required or fee payable to the Company or the DAO, for doing so.

- 4.1.6 License. You are hereby granted a non-exclusive, non-transferable, revocable, limited license to electronically access and use the Sites in the manner described in these Terms. You do not have the right to sublicense the Sites. We may revoke or terminate such license at any time if you use, or attempt to use, the Sites in a manner prohibited by these Terms, or if these Terms are otherwise terminated pursuant to the terms hereof. Notwithstanding the foregoing, the DAO Smart Contract and the KyberSwap Smart Contracts are open- source software, are only accessible pursuant to an MIT license, and are not subject to the limited license described above. For more information regarding such MIT license applicable to the DAO Smart Contract and the KyberSwap Smart Contracts, please refer to the protocol documentation

<https://github.com/KyberNetwork/kyberswap-interface/blob/main/LICENSE>

4.2 DAO Services

- 4.2.1 The Sites may enable a User to format transaction messages with which the User can direct their Wallet software (for example, Ledger or MetaMask), or other Third Party Integrated Applications, to interact with the following functions of the DAO Smart Contract:

- (a) link a Linked Address to the DAO Smart Contract;
- (b) select the number of KNC Tokens contained at the Linked Address which such User would like to deploy for Staking and be accorded Voting Power based on such number of KNC Tokens deployed for Staking; or
- (c) either:
 - (i) retain and exercise Voting Power as accorded to such User based on such User's Staked KNC Tokens for Voting on Community Proposals, and be accorded Voting Rewards;
 - (ii) effect Delegated Voting in respect of such Voting Power to a KNC Pool Operator;
 - (iii) if such User is a KNC Pool Operator, exercise Voting Power as assigned to such KNC Pool Operator or the Voting Power attributable to such KNC Pool Operator's own KNC Tokens in its capacity as a KNC Tokenholder for Voting on Community Proposals and be accorded Voting Rewards; or
 - (iv) if such User has been accorded Voting Rewards for Voting, request to claim (a "**KNC Voting Claim Request**") such Voting Rewards whereupon such Voting Rewards will be transferred to the Linked Address of such User.

4.2.2 While the Sites may assist in formatting messages, it is the responsibility of the User acting in connection with the User's third-party Wallet software and/or other Third Party Integrated Applications, to:

- (a) communicate a User's authentication and instruction to connect such Linked Address to the DAO Smart Contract;
- (b) communicate a User's selection of Staked KNC Tokens to the DAO Smart Contract;
- (c) communicate a User's Delegated Voting to a KNC Pool Operator to the DAO Smart Contract;
- (d) communicate a User's Vote(s) in respect of a Community Proposal; and
- (e) communicate a KNC Voting Claim Request to the DAO Smart Contract (the Services described in Paragraph 4.2.3, collectively, the "**DAO Services**").

4.2.3 By accessing or using the Sites or DAO Services, you acknowledge, agree and accept that:

- (a) based on the DAO Smart Contract, if you effect Delegated Voting with a KNC Pool Operator, any Voting Rewards attributable to the Voting Power delegated to such KNC Pool Operator pursuant to such Delegated Voting will be distributed to the Linked Address of such KNC Pool Operator (and not you), and such KNC Pool Operator may choose not to distribute any of such Voting Rewards it receives to you;
- (b) while such KNC Pool Operator may develop an arrangement with you to onward distribute such Voting Rewards (or a part thereof) to you as a KNC Delegator of such KNC Pool Operator, such arrangement would be a separate arrangement between such KNC Pool Operator and you as a KNC Delegator; and our Services do not include, and no KyberSwap Party is responsible for any, recovery of Voting Rewards from such KNC Pool Operator on your behalf;
- (c) the DAO Smart Contract will be exclusively maintained and modified in accordance with the DAO Smart Contract Protocols and not by any KyberSwap Party. KNC Tokenholders may, through Voting on Community Proposals, update or alter the DAO Smart Contract from time to time in order to add new features and functionality, in response to Forks, chain migrations, or other changes to the underlying blockchains, in order to address security incidents or vulnerabilities, or as otherwise determined by KNC Tokenholders Voting on Community Proposals. For more information regarding the DAO Smart Contract, please see the documentation available at <https://docs.kyberswap.com/governance/kyberdao/contracts>;
- (d) based on the DAO Smart Contract, in order to be eligible to receive the Voting Rewards attributable to Voting or Delegated Voting in respect of a particular Community Proposal:
 - (i) you (in the case of Voting) or your designated KNC Pool Operator (in the case of Delegated Voting) must exercise your or such KNC Pool Operator's (as the case may be) Voting Power for Voting within the timeframe prescribed by the DAO Smart Contract for Voting in respect of such Community Proposal ("**Prescribed Timeframe**"); and
 - (ii) you must maintain your Staked KNC Tokens to which such Voting Power is attributed for the full duration of the Prescribed Timeframe and cannot initiate a

release of such Staked KNC Tokens from Staking during the Prescribed Timeframe.

4.3 **The KyberSwap Services**

4.3.1 The KyberSwap Services include KyberSwap Interface and KyberSwap Public APIs. For more information regarding the KyberSwap Services, which may change from time to time, please visit <https://docs.kyberswap.com/introduction>.

4.3.2 **Token and Transaction Information:** The Sites and Services can be used to format transaction messages compatible with a wide variety of Tokens, and the ability of the Site or Services to display information or format messages that enable interaction with any given Token does not constitute an endorsement or approval by the Company or by the Sites or Services of any such Token, or its project team.

(a) The content displayed on the Site is for informational purposes only and no such information or other material should be construed as legal, tax, investment, financial, or other advice.

(b) By default, the Sites and Services allow Users to format transaction messages related to a list of Tokens available on the Sites. The availability or display of a Token on KyberSwap also does not indicate any endorsement of the token or project team, and KyberSwap disclaims all responsibility for interacting with any such Tokens or their associated smart contracts. Users can also use the Sites or Services to format messages to interact with Tokens not included on the list, by entering a Token's smart contract address. The Site and Services disclaim all responsibility for any such interaction. By accepting these Terms, the User agrees to assume all risk of interacting with any Tokens or associated smart contracts.

4.3.3 **Confirming Transactions.** The User hereby agrees that it is the User's responsibility to confirm all the parameters of any transaction. Token prices and liquidity are volatile, and transaction parameters may change between the time a User first selects parameters and when the User confirms all parameters of a transaction. Any transaction parameters displayed or returned through the Sites or Services are provided for informational purposes only, may change without notice and do not constitute a guarantee of execution or outcome.

4.3.4 **Transaction Fees.** By using the Sites or the Services, you acknowledge and agree that a Transaction Fee may be charged for each transaction executed through the KyberSwap Smart Contracts. The Company will publish a Transaction Fee schedule accessible on the Sites at <https://docs.kyberswap.com/kyberswap-solutions/fee-schedule> as may be updated from time to time by the Company. The Transaction Fee for any transaction may be displayed to and must be accepted by a User during the initiation or confirmation of a transaction. By using the Sites or the Services, you hereby consent to such Transaction Fees being debited in Tokens applicable to your relevant transaction at the time such transaction is processed. Persons accessing and using the KyberSwap Smart Contracts outside of the Sites will also see a similar Transaction Fee schedule.

4.4 **Third Party Integrated Services**

4.4.1 In addition to the KyberSwap Services and the DAO Services, the KyberSwap Parties may provide access to additional Services through the Sites from time to time, including by integrating or providing links to Third Party Integrated Applications. The Services may also obtain information or quotes from, or route transactions through, third-party decentralized exchanges, liquidity

providers, protocols or other liquidity sources (“Third Party Liquidity Sources”), which may be added, removed or changed by the KyberSwap Parties from time to time. Without limiting the generality of the foregoing, you acknowledge, agree and understand that the KyberSwap Parties, the Services and the Sites do not, and will not, permit you to purchase, sell, trade or transfer Tokens or other forms of cryptocurrency directly through the Sites or via the Services, and that no KyberSwap Party shall be responsible or liable for any Losses suffered or incurred by you in connection with the use of Third Party Integrated Applications or Third Party Liquidity Sources, including their availability, operation, performance or the accuracy, completeness, timeliness or reliability of information or quotes provided by them. For a description of the Third Party Integrated Applications made available through the Services or the Sites, please reference <https://docs.kyberswap.com/reference/third-party-integrations>
